Fayette County Official Finds Killing of Riley Stewart is "Justifiable Homicide"

VERDICT TODAY

Says Stewart Met Death "From Gun Shot Fired in Self-Defense" by P. T. Bilby

CHICKEN STEALING A TRADE

Developes Here Today That Stewart Had Been Selling Fowls to a Knightstown Firm

BULLETIN.

Connersville, Ind., March 24.-The verdict of Coroner Meyers filed late this afternoon, completely exonerates P. T. Bilby from any charges growing out of the killing This will be the second report subof Riley Stewart, who was caught mitted. Eben Wolcott, a member of stealing Bilby's chickens about mid- the state tax board, was here today night Wednesday. The verdict of in conference with Mr. Schrader and the coroner states that it was "jus-|some suggestions for the assessors tifiable homicide." The report on were likely to be made. the death of Stewart says "he met death from a gun shot fired in selfdefense." The coroner's verdict makes it practically certain that Bilby will not be prosecuted.

It has developed since the tragedy that Stewart had been carrying on extensive operations in stealing chickens. It was stated today that he has been disposing of his stolen property to a Knightstown poultry firm and that he was due there yesterday with another batch of chickens. The chickens, which would have Because of Their Home Surroundbeen sold there, had not Stewart been killed, undoubtedly would have been the Bilby and Moffett fowls.

It was stated here this morning by a man, who is in the poultry business, that Heaton's automobile was used to take Stewart to Knightstown and that he made trips there two or three times every week. According to this man, Stewart received the check from the Knightstown firm under the name of "N. York." This man declared that this had been going on for several months.

This poultry dealer had contracted with Mr. Bilby to buy his chickens when the price reached 15 cents a pound. One week ago today he went to the Bilby home to make the purchase. Mrs. Bilby had placed sixty chickens in a pen the night before and when the huckster arrived some twenty odd chickens were found missing. Moffett also missed some chickens this same night.

It develops that the attempted theft of chickens at the home of P. T. Bilby, on the Glenwood road near Bunker Hill, Fayette county which resulted in the killing of Riley Stewart of this county by Bilby, was not the first for that neighborhood recently.

TYPISTS IS NECESSARY TO SALVATION

in Order to Reach Heaven. Declares Rev. Daniel Ryan

PREACHES AT M. E. REVIVAL WORKMEN BARELY

Whittsitt, District Superintendent Bacon Speaks Tonight

"The only way to the holy of holies is through the blood of Jesus Christ. As it was necessary in the olden times to offer up a sacrifice, so today there is no power, no victory without sacrifice. We cannot expect a revival unless we meet the demands. All honor to the sacrament, all honor to baptism, but it takes the blood of Jesus Christ to cleanse our sins. There is nothing meaner than trampling on this blood and breaking this covenant with God. The father never breaks covenant with me, will I break it with him?

Due to the illness of the Rev. W. M. Whittsitt, the Rev. Daniel Ryan of Glenwood preached at the St. Paul's M. E. church last evening. The Rev. C. E. Bacon, district superintendent of Connersville will preach this evening. Preceding the sermon, Clarence E. Lane sang duet with Master Lowell Wagoner, and later one with Miss Norma vice was conducted this afternoon. There will be no services tomorrow and the regular ones will continue on Sunday.

Taking his text from the 9th chapter of Hebrews, the Rev. Daniel Ryan preached on the necessity of sacrifice if we expect salvation. He illustrated his point with the sacrifices and blood shed in the old and new testaments. Several bible stories were reviewed as follows:

"The first person who ever entered heaven from this earth was Abel, who sacrificed his life at the hands of his brother, who in surroundings with no saloons, no gambling dens, had the best chance on earth but did not take it. Going further in the new testament, we read the story of Abraham who at Seven cases in juvenile court were the command of God divided his anfice. The trouble with us is that we peared and told Abraham to offer up his son. The saddest days in the fully made up his mind to obey the call of God. We know the story of life of Isaac. His obedience to the will of God has caused all the descendants of Abraham to be blessed,

"Then we follow the sacrifices to Egypt, where God called Moses. Three hundred thousand lambs were slain and their blood saved the lives of the first-born. That very night a nation was started. Just as true is sacrifice necessary, in the dedication of Solomon's temple.

"Now let us journey to the New testament," when the Rev. Mr. Ryan recited the stories preceding the death of Jesus Christ and the sacrifices he made at that time. "In husband and I should step in front passed this afternoon. of him and receive the blow, should then I should knock at your door and you would bolt it against me, has shed his blood for us."

(By United Press.)

Greencastle, Ind., March 24 .-Three foreign workmen were injured at the Ohio & Indiana quarries two miles southwest of here when 4,000 pounds of dynamite let go at 6:55 a. m., today. The explosive was stored in the ground and was being warmed by steam pipes.

The day force had not yet reported. The night force was in a shanty several hundred feet distant. Jim Mike, a Russian, suffered a broken leg. The others received lesser injuries. Plate glass windows here were shattered and the shock was felt for a radius of forty miles. One hundred men are regularly

NO WORD FROM PERSHING.

(By United Press.)

San Antonio, Texas, March 24 .--At General Funston's headquarters shortly before noon it was said absolutely no word of the reported surrounding of Villa near El Oso had been received from General Pershing.

(By United Press.)

El Paso, Texas, March 24.-Whether Pancho Villa is surrounded by American and Carranzista troops or has again made good his escape from a reported trap set for him south of Namiquita was a mystery here this afternoon. Though Carranza authorities at Juarez still insisted that they had received authentic reports late last night of the defeat of Villa at El Oso, United States army officers here and at Columbus and at San Antonio were without information. Some of them doubted the battle had occured.

Confirmation of reports that General Pershing obtained permission to use the Mexican railway line south of Casas Grandes was brought to El Paso today by Americans arriving from Casas Grandes.

Pershing sent two troop trains to Aguaje, Chihuahua, in an effort to cut off Villa's flight southward. As the troop movement was made Sunday, it is believed the troops have had sufficient time to reach a point south of Namiquita.

When the passengers left Casas Grandes yesterday nothing had been heard of Villa's exact whereabouts. However reports frequently reached the expedition headquarters that Villa was murdering Americans and continuing his outlawry.

The passengers renewed the charges against the Carranza garrison passed a half mile from them on his retreat from the Columbus massacre. The garrison has not joined the American expedition in

The Dealer's Viewpoint

Frequently a newspaper is asked to induce local merchants to co-operate with some manufacturer's general advertising. It would get a reply something like this if it attempted to comply:

"I have built my business and individualized my store through newspaper advertising. You say newspaper advertising is good; I know it is good. Why don't this manufacturer spend his money where his newspaper advertising will create a direct demand over my counters for the product?"

Charles Moffett's farm the same night, and elsewhere about the same neighborhood raids on the hen houses have been frequent of late.

These facts were developed yesterday afternoon in the story Bilby told at the coroner's inquest Connersville. The recollection these things caused Francis Bilby, age seventeen years, only child of Mr. and Mrs. Bilby to be roused from his sleep by the disturbance among the chickens. He quietly awakened his father, who arose and, half dressed, went after the night prowlers with a .38 calibre revolver. The son, barefooted, and in his night clothes followed. The night was almost as bright as day because of a full moon.

Stewart, whom Mr. Bilby still did not know, got over the fence just as the elder Bilby reached it. Heaton, evidently about to go in the car and leave his companion in trouble, had the engine in motion. Stewart caught up a stone from the ground and made as if to strike Mr. Bilby, who was very close to him. Mr .Bilby says he was terrified by this gesture and feared a gunshot, seeing this turn on the part of the fugitive. Therefore he fired toward the man. Instantly the fellow reeled out from the fence, across the road and there he fell prone. In the same instant Heaton threw open the throttle and the big car went westward like a hurricane.

Mr. Moffett's house is a little way east of the Bilby place, on the same road. Mr. Bilby told his boy, to was shivering in his night dress, to hurry back to the house and dress. This the youth did. Mr. Bilby bent over the fallen figure, which gave no signs of life, then hurried down to the Moffet home. There he called Sheriff Hendrickson, directing him to come with all speed, bringing a

A Valuable Movement.

The National "Clean Up and Paint Up" campaign has accomplished wonderful things not only in improvng sanitary conditions, but in arousing civic pride. Some of the accomplishments of the campaign are set forth graphically in a booket just issued by the bureau that is in charge. The movement is advanced as one that aids city, town and state officials.

The bane of public officials is the citizen who lacks even a semblance of interest in the community of civic welfare. And strange as it may seem in a democracy, absence of this interest seems to be pretty generally prevalent in the average American community, a fact that is acknowledged by many leaders in public life and civic advance. citizen would have "the city," what- There should be no cold feet at this ever that name may signify when the hour." great body of citizens is eliminated, keep the streets and alleys clean, preserve the public and individual health, eliminate all nuisances, make everything in town spick and span and satisfactory-while the citizen does his worst to counteract the efforts of public servants to achieve the end he demands.

The "Clean Up and Paint Up" campaign according to thousands of city and town officials, is a most potent combatant of slothful citizenry. First, the campaign arouses the desire in men, women and children for homes and towns beautiful thrift and civic pride are essentials by which they will be able to satisfy that desire. Third, the campaign gives all something to do with their hands and feet and heads for the civic good. And fourth, its educational influence remains steadily the year 'round and year after year, automatically eliminating many nuisances caused formerly by carelessness or thoughtlessness.

In concluding his 1915 report Chairman George C. Morton, of the New England "Clean Up and Paint Up" Committee, says: "A civic awakening is already apparent in American cities and towns, started by the 'Clean Up and Paint Up' movement. It is a fact that the general public everywhere is taking a greater interest than ever before in civic matters. This is shown by efforts that are being made for more efficient city and town government, improved housing conditions, better streets and better sanitary conditions. We are proud of the fact that the 'Clean Up and Paint Up' campaign has had a part in starting this good work."

Tooth Loose? Watch out for Pyorrhea!

When you find a tooth that gives back and forth, even just a little, see your dentist at

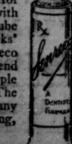

He will find conditions which you might overlook. He will find a gum recession. even though slight, where the gums have pulled away from the teeth. And he will tell you that you have the dread disease pyorrhea.

From pyerrhea come by far the reater part of all tooth troubles. Unless treated and checked, it will result not only in the shrinking and malformation of your gums and of the bony structure into which your teeth are set, but in the loss of the teeth themselves.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Sentanel Remedies Company 503 Union Central Building, Cincinnati, Ohio.

IKE a Pup to a Root," do they hang on to the Earth, when you throw in the Clutch, or I throw on the Brakes.

But,—instead of merely grinding against said Earth,—for Traction,—they CLING to it, much as

your bare foot clings to slippery surfaces.

This new and wonderful Goodrich "Barefoot Rubber," is as stretchy almost as a pure Rubber band, —Light-weight as Rubber in its native amber color, but stronger, tougher, longer-wearing (in Tires) than pure Rubber could ever be.

That Lightness, Stretch, and CLING-quality is due, in part, to the absence of the heavy and inert white substances which, in other Tires, provide the gritty texture designed to give effective but grinding Traction, when Clutch or Brakes do their work.

To provide its maximum Traction with minimum Friction (which means minimum Heat, minimum Tread-Wear, and lessened Strain on the rubber adhesive between fabric layers.)-

-That's the Mission of the new Goodrich "Barefoot Rubber."

How well it does this work, -how much more Resilience, Comfort-in-riding, and Mileage, it cives, may be realized only by test.

"AREFOOT RUBBER" can be had in Goodrich Safety-Tread Tires,—Goodrich Motor-Cvcle Tires,—Goodrich Bicycle Tires,— Goodrich Truck Tires, - Goodrich Rubber Boots, Overshoes, Soles and Heels, and in no other make but Goodrich.

Get a sample of it, at the nearest Goodrich Branch or Depot today.

Stretch it thousands of times, but tear its fibres

With all this, -observe that the best Fabric Tires in America-made of this TENACIOUS "Barefoot" Rubber, -cost you no more (and usually less), than or-

dinary Tires made by other responsible manufacturers.

No "larger-sized" Tires (taken Size for Size and Type for Type), are made than Goodrich Black-Tread Tires.

Why, then, should any Business Man pay more than the Goodrich "Fair-List" Price, for any Tire, until he has at least tested one pair of these new "Barefoot" Rubber Goodrich Tires?

BETTER THAN CALOMEI

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substi-tute for calomel—are a mild but sure laxa-tive, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 10c and 25c per box. All druggists.

Faces Chance of a Lifetime in Battle With Willard Tomorrow Night in New York.

By THE SPORT SEER.

New York, March 24.-Frank Moran, the red-haired, bull-necked for the fight of his life.

In every fibre of his being the Pittsburgh heavyweight today felt in Madison Square Garden, and tomorrow's bout. sending his name down in puglistic history as one of the greatest fighters the game ever knew.

On the big fight depends Moran's status in the annals of the game. If he sprawls Willard's six feet six inches of length on the canvas tomorrow night it is a safe bet that the daddy of the future will take little Willie on his knee and point out the moral of "the bigger they are the harder they fall," with Frank Moran playing the stellar role in the narrative.

If Willard drops Moran then Frank's name won't amount to much more than an incidental in the game of pugilism.

hard as a stony-hearted village the training program from hard outweights and long sessions of sparring with his training mates. Frank Moran is ready.

Moran and his manager, Ike Dorgan, present an old combination in the fight game. They are friends inseparable and what Ike says goes with Moran for the good of the combination.

Ike Dorgan never intended to manage a fighter, but when Moran came drifting back from Paris after handing Jack Johnson that tough 20-round fight they just naturally drifted together. They never had a written contract and neither of them wants one.

"It's just like gettin' married," Ike. "Some people want to split up just because they're tied. Frank and I don't need a contract. We're the best friends in the world; he's for me and I'm for him. Either of us would be hurt a whole lot more by losing the other's friendship than by loss of the money we might help and the rest of the United Stateseach other make.

Dorgan's ability to analyze a fighter's qualities and sight a star, dim as yet in the pugilistic offing, is well known in New York and San Francisco. So long ago as 1914 he cast his eye on Benny Leonard, the sensational lightweight, who is regarded as a contender for Freddie Welsh's crown, and gumshoed around trying to sign him.

Dorgan found Benny surrounded by a flock of relatives. Two things struck him at the same time; first and strongest, the fragrance of the onion's cousin; second, the conclusion that Benny Leonard,s management was going to be a family affair. Dorgan backed off and has watched the almost entire fulfillment of his expectations in Benny Leonard.

Moran has prospered under Dorgan's management. He received \$6,900 for his first fight with Jim Coffey in which he flattened the man from Cork in three rounds; for the second bout he received \$9,994, challenger of Jess Willard is ready which was \$1,994 more than the garden people were willing to offer

> And if you should happen to encounter a stout lady coming down Perkins street, clad in gray, don't mistake her for a battleship. The chances are that she is wearing a brand new stunning costume in battleship gray. Strange to relate, the battleships are responsible for the prevalence of battleship gray this year, just as they are responsible for pale pink and anaemic blue.

Good old Dame Fashion has a reason for prescribing the subdued colors this year, and the reason islact of the proper dye to produce the cockatoo colors. And here is where the battleship reason comes in. The fast dyes are imported from Germany and so far German dyes have been unable to get by the allied fleet with any great degree of success. Hence the shortage.

Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly.

Swift's Fertilizers Continue to Make Winners

If you used Swift's Fertilizer and obtained the best yield in the state you would, of course, give our fertilizer the credit that was due NOW, if the following year's Champion used Swift's and this performance repeated from year to year, you naturally would begin to think that Swift's Red Steer Brand is a pretty good fertilizer, would you not?

Look at the Record and Decide Yourself.

There can be no better proof of the value of a fertilizer than the records made by those who use it. There must be merit in a fertilizer that produces the results stated below:

Mr. Will Essig, Tipton, Indiana-131 bushels corn per acre. The largest yield of which there is any record in Indiana. Mr. Essig was recently awarded a gold medal at the Panama Exposition. Used SWIFT'S. Mr. Norris McHenry, Elizabethtown, Ind .- 112 bushels per

acre. Winner of the Indiana 1914 Men's Five Acre Corn

Contest. Used SWIFT'S. In 1915 he was induced to use other than Swift's Fertilizer and got no prize. Mr. F. R. McHenry, Norris' father-used no fertilizer in 1914 and won no prize, but as his son won the State Championship in 1914 with the aid of Swift's Fertilizer, Mr. McHenry used Swift's in 1915, got 87.3 bushels of ripe corn per acre and won the sweepstakes for men in the Bar-

tholomew County Five Acre Corn Contest. The 1st, 2d, 3d and 4th prizes for the highest yields of good quality corn in the 1915 Five Acre Corn Contest for men in Bartholemew County, Indiana, all went to users of Swift's Fertilizer. Also in the Boys' One Acre Corn Contest in the same county, the 1st, 2d,

The Ohio 1914 Champion Corn Grower, Arnett Rose, Alger, Ohio-153.9 bushels-used SWIFT'S. The Ohio 1915 Champion Corn Grower, Dewey Haines,

3d and 4th prizes went to users of Swift's Fertilizer.

Arcanum, Ohio-154 bushels-used SWIFT'S. The Indiana 1914 Boy Champion Corn Grower, Roy Friedersdorf, Elizabethtown, Ind.—128.8 bu.—used SWIFT'S. Gordon Reap, Elizabethtown, Indiana, who was third last year, is County Champion with 105.73 bushels. He also

used SWIFT'S this year. There certainly MUST be something in Swift's Fertilizers that PRODUCES RESULTS. Swift's blood, bone and tankage

fertilizers make prize winners. If YOU do not use Swift's Fertilizers, you are not sure that you are using the best fertilizer obtainable. You want the bestthen buy SWIFT'S-the Red Steer Brand.

'Tis quite agreed We need The sun's clear rays To beam around the sky; To comfort us on washing days And make the clothes get dry. By pushing out his fight, At early dawn, Just as the stars are gone, He makes the daytime Out of night.

Of such a good and noble sun It's awful to believe. A wicked trick. But he is full of fun And he has one, That surely makes me grieve. He will peek thru the blinds And fade My parlor chair, Upholstered in the bright brocade Of royal blue: I've moved that chair all 'round the room;

I've purchased shades of darkest And yet he wriggles thru The gloom, And fades and fades; Until I'm in despair About the sun

MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers-Meat forms uric acid.

If you must have your meat every day, eat it, but flush your kidneys with salts eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is had you have rhoungting twinges. The is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three time during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations gaudy hues that delightened to flush and stimulate sluggish kidneys the heart of the old warrior also to neutralize the acids in urine so it no longer irritates, thus ending

Fayette County Official Finds Killing of Riley Stewart is "Justifiable Homicide"

VERDICT IS FILED TODAY

Says Stewart Met Death "From a Gun Shot Fired In Self-Defense" by P. T. Bilby

CHICKEN STEALING A TRADE

Developes Here Today That Stewart Had Been Selling Fowls to a Knightstown Firm

BULLETIN.

Connersville, Ind., March 24.-The verdict of Coroner Meyers filed late this afternoon, completely exonerates P. T. Bilby from any charges growing out of the killing of Riley Stewart, who was caught stealing Bilby's chickens about midnight Wednesday. The verdict of the coroner states that it was "justiffable homicide." The report on the death of Stewart says "he met death from a gun shot fired in selfdefense. The coroner's verdict makes it practically certain that Bilby will not be prosecuted.

It has developed since the tragedy extensive operations in stealing of thickens that Stewart had been carrying on chickens. It was stated today that he has been disposing of his stolen he has been disposing of his stolen property to a Knightstown poultry firm and that he was due there yesterday with another batch of chickens. The chickens, which would have Because of Their Home Surroundbeen sold there, had not Stewart been killed, undoubtedly would have been the Bilby and Moffett fewls.

It was stated here this morning by a man, who is in the poultry business, that Heaton's automobile was used to take Stewart to Knightstown and that he made trips there two or three times every week. According to this man. Stewart received the check from the Knightstown firm under the name of "N. York." This man declared that this had been going on for several

This poultry dealer had contracted with Mr. Bilby to buy his chickens when the price reached 15 cents a pound. One week ago today he went to the Bilby home to make the purchase. Mrs. Bilby had placed sixty chickens in a pen the night before and when the huckster arrived some twenty odd chickens were found missing. Moffett also missed some chickens this same night.

It develops that the attempted theft of chickens at the home of P. T. Bilby, on the Glenwood road near Bunker Hill, Fayette county which resulted in the killing of Riley Stewart of this county by Bilby, was not the first for that neighborhood

recently. Last Friday night twenty-eight chickens were stolen from the Bilby coop. A number were stolen from Continued on Page 2.

in Order to Reach Heaven, Declares Rev. Daniel Ryan

PREACHES AT M. E. REVIVAL

Due to Iliness of Pastor, W. M. Whittsitt, District Superintendent Bacon Speaks Tonight

"The only way to the holy of olies is through the blood of Jesus Christ. As it was necessary in the olden times to offer up a sacrifice, so today there is no power, no victory without sacrifice. We cannot expect a revival unless we meet the demands. All honor to the sacrament, all honor to baptism, but it takes the blood of Jesus Christ to cleanse our sins. There is nothing meaner than trampling on this blood and breaking this covenant with God. The father never breaks a covenant with me, will I break it

Due to the illness of the Rev. W. M. Whittsitt, the Rev. Daniel Ryan Paul's M. E. church last evening. The Rev. C. E. Bacon, district superintendent of Connersville will preach this evening. Preceding the sermon, Clarence E. Lane sang a duct with Master Lowell Wagoner, and later one with Miss Norma Smith. The regular afternoon service was conducted this afternoon. There will be no services tomorrow and the regular ones will continue on Sunday,

Taking his text from the 9th chapter of Hebrews, the Rev. Daniel Ryan preached on the necessity of sacrifice if we expect salvation. He illustrated his point with the sacrifices and blood shed in the old and new testaments. Several bible stories

Abel, who sacrificed his life at the hands of his brother, who in surroundings with no saloons, no gambling dens, had the best chance on earth but did not take it. Going further in the new testament, we read the story of Abraham who at the command of God divided his animals and then defended his sacrifice. The trouble with us is that we do not defend our sacrifices. And then after Isaac's birth, God appeared and told Abraham to offer up his son. The saddest days in the fully made up his mind to obey the call of God. We know the story of how God, seeing his faith, saved the life of Isaac. His obedience to the will of God has caused all the descendants of Abraham to be blessed. according to the prophecy.

"Then we follow the sacrifices to Egypt, where God called Moses. Three hundred thousand lambs were slain and their blood saved the lives of the first-born. That very night a nation was started. Just as true is sacrifice necessary, in the dedication of Solomon's temple.

"Now let us journey to the New testament," when the Rev. Mr. Ryan recited the stories preceding the death of Jesus Christ and the sacrifices he made at that time. "In the garden we have the picture of him kneeling, shedding great drops of blood for you and for me. If some one should start to stab your husband and I should step in front of him and receive the blow, should fight for life and finally recover; then I should knock at your door and you would bolt it against me, you would be treating me just as many people treat Jesus Christ who has shed his blood for us."

Sacrifice Must be Made Even Now Four Thousand Pounds Explode Near Greencastle And Shock is Felt 40 Miles Away

> WORKMEN BARELY ESCAPE

Charles Wright, Seeing Smoke, Gives Warning in Time For Them to Get Out of Way.

(By United Press.)

Greencastle, Ind., March 24.-Three foreign workmen were injured at the Ohio & Indiana quarries two miles southwest of here when 4,000 pounds of dynamite let go at 6:55 a. m., today. The explosive was stored in the ground and was being warmed by steam pipes.

The day force had not yet reported. The night force was in a shanty several hundred feet distant. Jim Mike, a Russian, suffered a broken leg. The others received lesser injuries. Plate glass windows here were shattered and the shock was felt for a radius of forty miles.

One hundred men are regularly employed and their escape was considered fortunate. The plant and quarries were wrecked.

The dynamite was contained in eighty boxes. The steam pipes used in the "thawing out" process are supposed to have become too hot.

Charles Wright, a workman, saw enoke issuing from the storing place and his warning gave men near the spot an opportunity to run to safety before the explosion.

Washington, March 24.-Charges that "sinister forces" are seeking to inflame Americans and Mexicans into war were made by Senator Stone, administration spokesman in the senate, today following the reading of telegrams submitted by Senators Borah and Sheppard.

The telegrams told of the serious eonditions existing along the Texas and Arizona borders.

Stone declared that it was against public policy to have them made public and that they should have been submitted to the war department.

"I have no apology to make," interjected Borah in the midst of a heated statement by Stone.

"You might have acted with greater proprietory," retorted Stone.

NO WORD FROM PERSHING.

(By United Press.)

San Antonio, Texas, March 24 .--At General Funston's headquarters shortly before noon it was said absolutely no word of the reported surrounding of Villa near El Oso had been received from General Pershing.

(By United Press.)

El Paso, Texas, March 24.-Whether Pancho Villa is surrounded by American and Carranzista troops or has again made good his escape from a reported trap set for him south of Namiquita was a mystery here this afternoon. Though Carranza authorities at Juarez still insisted that they had received authentic reports late last night of the defeat of Villa at El Oso, United States army officers here and at Columbus and at San Antonio were without information. Some of them doubted the battle had occured.

Confirmation of reports that General Pershing obtained permission to use the Mexican railway line south of Casas Grandes was brought to El Paso today by Americans arriving from Casas Grandes.

Pershing sent two troop trains to Aguaje, Chihuahua, in an effort to cut off Villa's flight southward. As the troop movement was made Sunday, it is believed the troops have had sufficient time to reach a point south of Namiquita.

When the passengers left Casas Grandes yesterday nothing had been heard of Villa's exact whereabouts. However reports frequently reached the expedition headquarters that Villa was murdering Americans and continuing his outlawry.

The passengers renewed the charges against the Carranza garrison passed a half mile from them on his retreat from the Columbus

The Dealer's Viewpoint

Frequently a newspaper is asked to induce local merchants to co-operate with some manufacturer's general advertising. It would get a reply something like this if it attempted to comply:

"I have built my business and individualized my store through newspaper advertising. You say newspaper advertising is good; I know it is good. Why don't this manufacturer spend his money where his newspaper advertising will create a direct demand over my counters for the product?"

The local dealer is glad to co-operate with the manufacturer's advertising when it appears in the newspapers of his city.

BLBY

Charles Moffett's farm the sam night, and elsewhere about the same neighborhood raids on the hen houses have been frequent of late.

These facts were developed yesterday afternoon in the story Bilg by told at the coroner's inquest in Connersville. The recollection of these things caused Francis Bilby, age seventeen years, only child of Mr. and Mrs. Bilby to be roused from his sleep by the disturbance among the chickens. He quietly awakened his father, who arose and, half dressed, went after the night prowlers with a .38 calibre revolver The son, barefooted, and in his night clothes followed. The night was almost as bright as day because of a full moon.

The Connersville News gives a slightly different account of the swift succession of incidents that led to the fatal shooting-varying in a small degree with the story which was received here.

Stewart, whom Mr. Bilby still did not know, got over the fence just as the elder Bilby reached it. Heaton, evidently about to go in the car and leave his companion in trouble, had the engine in motion. Stewart caught up a stone from the ground and made as if to strike Mr. Bilty, who was very close to him. Mr .Bilby says he was terrified by this gesture and feared a gunshot, seeing this turn on the part of the fugitive. Therefore he fired toward the man. instantly the fellow reeled out from the fence, across the road and there he fell prone. In the same instant Heaton threw open the throttle and Heaton threw open the throttle and the big car went westward like a hurricane.

Mr. Moffett's house is a little way east of the Bilby place, on the same road. Mr. Bilby told his boy, to was shivering in his night dress, to hurry back to the house and dress. This the youth did. Mr. Bilby bent over the fallen figure, which gave no signs of life, then hurried down to the Moffet home. There he called Sheriff Hendrickson, directing him to come with all speed, bringing a

Major Sample, commander at Columbus, stated he had absolutely no information of any engagement between Pershing's troops and Villa. The army's wireless is now in good working order, Sample said, but early (today) he had received no information of Villa being closely surrounded by American and Carranzista troops. Carranza Consul Garcia at 8 a. m., said he had received no word from the front although he had expected fighting with Villa to begin at daybreak.

A Valuable Movement.

The National "Clean Up and Paint Up" campaign has accomplished wonderful things not only in improving sanitary conditions, but in arousing civic pride. Some of the accomplishments of the campaign are set forth graphically in a booklet just issued by the bureau that is in charge. The movement is advanced as one that aids city, town and state officials.

The bane of public officials is the citizen who lacks even a semblance of interest in the community of civic welfare. And strange as it may seem in a democracy, absence of this interest seems to be pretty generally prevalent in the average American community, a fact that is acknowledged by many leaders in public life and civic advance. A citizen would have "the city," whatever that name may signify when the great body of citizens is eliminated. keep the streets and alleys clean, preserve the public and individual health, eliminate all nuisances, make everything in town spick and span and satisfactory-while the citizen sits back and looks on or carelessly does his worst to counteract the efforts of public servants to achieve the end he demands.

The "Clean Up and Paint Up" eampaign according to thousands of city and town officials, is a most potent combatant of slothful citizenry. First, the campaign arouses the desire in men, women and children for homes and towns beautiful and sanitary. Second. it impresses upon all the fact that cleanliness, thrift and eivic pride are essentials by which they will be able to satisfy that desire. Third, the campaign gives all something to do with their hands and feet and heads for the civic good. And fourth, its educational influence remains steadily the year 'round and year after year, automatically eliminating many nuisances caused formerly by carelessness or thoughtlessness.

In concluding his 1915 report Chairman George C. Morton, of the New England "Clean Up and Paint Up" Committee, says: "A civic awakening is already apparent in American cities and towns, started by the Clean Up and Paint Up' movement. It is a fact that the general public everywhere is taking a greater interest than ever before efforts that are being made for more efficient city and town government. improved housing conditions, better 8 streets and better sanitary conditions. We are proud of the fact that the 'Clean Up and Paint Up' campaign has had a part in starting this good work."

One View of Taggart.

The Indiana Forum, printed at Indianapolis, calls itself, "A liberty of democracy" and here is what its issue of last Saturday has to say of Taggart for the Senate."

"There are epochs in political history and the epoch of the personal organization, the political boss to use the common expression, is coming to a close. The pext election may be the last in which one-man power dominates a party in Indiana.

"The great figure in this epoch insofar as Indiana is concerned is Thomas Taggart. Those acts of which are now looked on with incleasing disfavor, were in his day. quite proper. He did nothing in polities which the other fellow didn't do. He played the game as it was played. He is in disfavor now because the rules have been changed and he insists on playing the game as he learned to play it.

"He is the personification of the epoch that is closing. It would be a sort of poetic justice-a final tableau -for Taggart to go to the great pride in the work of the so-United States Senate. The state is ciety. now under an admission for which Taggart is responsible. If it fails to appoint Taggart it fails to live up to the logic that established it.

"Taggart should go to the Senate, appointed by the Governor to serve until another senator is elected and qualified. He is the logical candi-

date for a Taggart regime. He will be the last handpicked senator from Indiana and as the master player in the handpicking game he has a right to go.

"Vote us for Taggart for senator. We wish to see him round out his eareer. His qualification is this he can be appointed. He can get the office. The Governor has a right to appoint him, not only that, by every rule of political gratitude the Governor should appoint him.,

"Let Taggart go to the Senate and fifty years from now when the teacher is explaining the history lesson in the school room she will tell the wonderful pupils "Boss rule in Indiana ended with Thomas Taggart in the Senate." He will become a human landmark like Columbus. John Brown, Queen Elizabeth, Kaiser William, Jesse James and others: whose names are significant of an epoch.

"Another reason why Taggart should go to the Senate by appointment is because he can't get there any other way.

"There is a multitude of reasons why Taggart should be appointed and if he isn't appointed we shall be deeply grieved and disappointed and shall live in the belief that the great drama of "personal politics" in Indiana had an illogical ending.

"Taggart should go to the Senate. There should be no cold feet at this

A commercial report informs us that Japan is buying a large number of sheep from Australia. The sheep industry is to be developed in Japan, and her woolen and worsted mills will soon rely on her domestic supply of wool. Under the Democritic saw she is getting into our market with cotton goods to an extent unprecedented in the history of our trade with the Kingdom of the Sun. There is no reason why, under the same law, she can not do so with woolen goods. Voters who are permitting the Democratic party to blindfold them with the foreign policy, should remove that bandage and take a look forward before casting their ballot.

Joseph A. Wright (1881-1867)

Joseph A. Wright affords the most striking example of all Indiana's self made men. When a mere boy he left Pennsylvania with his parents, and settled near Bloomington, Ind. A few years later he entered the state university and paid his way by doing janitor service. His books and clothes were bought with the money he earned while working at the brick-yard. After supporting himself for two years at the university, he read law under Judge Hester and was admitted to the bar before he was twenty years old. He began practicing in Rushville and in 1833 was elected to the legislature. In 1840 he was a member of the state senate, and three years later was elected to congress. In 1849 he defeated John A. Matson for the governorship and was re-elected in 1852. During his term of office, the constitution under which Indiana citizens now live, was adopted. The state agricultural society was formed, and Governor Wright was chosen as its first president. With him agriculture was a "hobby" and he took

DRESS MAKENG PULLARY

Monday, March 27th to Saturday, April 1st

An event to be held in this store which will materially assist the home sewer and dressmaker to plan and execute spring wardrobes.

Recognizing that the Dressmaking problem is one which all home sewers will give particular attention this season, we have striven to make this store of most helpful assistance to everyone who may be planning new attire now or thinking about it for the future.

Gathered here in faultless assortments are all of the newest and prettiest materials and accessories that are popular this season. Every part of the store that is related to this important subject reflects the newest features of the year. Displays are so conveniently arranged that inspection is as easy as turning over the pages of a book.

An Array of Silks Worth Seeing

We bought generously of silks and all shipments have arrived for display during Dressmaking Days. The broad variety of new patterns and colorings and unusual selection of weaves will more than repay you for the time spent in this section. Every bolt on display is of the quality that you would want and expect for your most elaborate apparel.

Black, White, Navy, Green, Old Rose, Blue Stripe, Green Stripe, Brown Stripe, Grays, from \$1 to \$2.

An Elegant Display of **Dress Cottons**

Of special interest are the new colored prints. You will see a variety of sheer weaves in large floral patterns as novelties, and stripes and broken checks as staples. Voiles, organdies, marquisettes and batistes are the principal sheer weaves in our showing.

Biscuit Shade, Light Green, Gray and all other colors. Prices from 25c to 75c.

The result of this effort is represented in Dressmaking Days to which we now invite you with the full confidence that you will find it far more interesting and instructive than you expect.

Style Information Bureau At Your Service

To make these Dressmaking Days as helpful as possible to you, we will have the efficient services of Miss May Moran, one of the town's best dressmakers. She will gladly help you in planning your spring wardrobe and furnish you with authoritative style information concerning your spring apparel.

Spring Dress Woolens in Goodly Variety.

VICTORY MEANS

Faces Chance of a Lifetime in Battle With Willard Tomorrow Night in New York.

AND HE HAS THE CONFIDENCE

Is in Fine Condition-Odds Favor Champion Over Ten Round Route-Expect Record Crowd.

By THE SPORT SEER.

New York, March 24.—Frank Moran, the red-haired, bull-necked challenger of Jess Willard is ready for the fight of his life.

In every fibre of his being the Pittsburgh heavyweight today felt confident of beating Willard tomorrow night before a mammoth crowd in Madison Square Garden, and sending his name down in puglistic history as one of the greatest fighters the game ever knew.

On the big fight depends Moran's status in the annals of the game. If he sprawls Willard's six feet six inches of length on the canvas tomorrow night it is a safe bet that the daddy of the future will take little Willie on his knee and point out the moral of "the bigger they are the harder they fall," with Frank Moran playing the stellar role in the narrative.

If Willard drops Moran then much more than an incidental in the game of pugilism.

hard as a stony-hearted village squire and beaming with health and the training program from hard outdoor work to exercise with the chest weights and long sessions of sparring with his training mates. Frank Moran is ready.

Moran and his manager, Ike Dorgan, present an old combination in the fight game. They are friends inseparable and what Ike says goes with Moran for the good of the combination.

Ike Dorgan never intended to manage a fighter, but when Moran came drifting back from Paris after handing Jack Johnson that tough 20-round fight they just naturally drifted together. They never had a vritten contract and neither of them

"It's just like gettin' married," Ike. "Some people want to split up just because they're tied. Frank and I don't need a contract. We're the best friends in the world; he's for me and I'm for him. Either of allied fleet with any great degree of us would be hurt a whole lot more by losing the other's friendship than by loss of the money we might help each other make.

Dorgan worked at Jimmy Coffroth's club in San Francisco on all Coffroth's championshipmatches and modest colors this spring. became pretty well acquainted with the fight game. He liked it but thought he would like New York, too, so he came East and went into the newspaper business.

"A couple of months before the Johnson fight Moran was in New York and asked me to handle him in a six-weeks' vaudeville tour," said Dorgan.

"We became firm friends in that little jaunt and Frank went over the pond and tossed gloves at Johnson for twenty of the toughest corated motor cars this year. rounds ever fought in Paris. Frank gave Johnson quite a mussing up and if the fight had gone further the of ink will have to be discontinued impending unpleasantness with Jess Willard would not have been necess-

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches, "duliness" and that lazy feeling come from constipation and a disordered liver. Table Dr. Edwards' Olive Tablets on the with "clear" clouded brain and how they "perk up" the spirits. At 10c and 25c per box. All druggists.

Dorgan's ability to analyze a fighter's qualities and sight a star, dim as yet in the pugilistic offing, is well known in New York and San Francisco. So long ago as 1914 he east his eye on Benny Leonard, the sensational lightweight, who is regarded as a contender for Freddie Welsh's crown, and gumshoed around trying to sign him.

Dorgan found Benny surrounded by a flock of relatives. Two things struck him at the same time; first and strongest, the fragrance of the onion's cousin; second, the conclusion that Benny Leonard,s management was going to be a family affair. Dorgan backed off and has watched

The chances are that she is wearing a brand new stunning costume in battleship gray. Strange to relate, the battleships are responsible for the prevalence of battleship gray this year, just as they are responsible for pale pink and anaemic blue.

Good old Dame Fashion has a reason for prescribing the subdued colors this year, and the reason islact of the proper dye to produce the cockatoo colors. And here is where the battleship reason comes in. The fast dyes are imported from Germany and so far German dyes have been unable to get by the

Dayville, Killingly, Conn.—"I shall be glad to have every woman know

what I know now, after using Lydia E. Pinkham's Vegetable Compound. Although I am only 24 years old, I have suffered for the past eight years. I hated the doctors, for a doctor told me to give up the stage where I was playing with my husband.

Dorgan backed off and has watched the almost entire fulfillment of his expectations in Benny Leonard.

Moran has prospered under Dorgan's management. He received \$6,900 for his first fight with Jim Coffey in which he flattened the man from Cork in three rounds; for the second bout he received \$9,994, which was \$1,994 more than the garden people were willing to offer at first.

For fighting Willard, Moran is to get \$23,750, just \$8,750 more than the first offer for his services in tomorrow's bout.

I had bearing down pains, my health failed me. and I could not work on the stage, and wasn't able to tend my baby or even get around myself. I was always downhearted and discontented with the world, and only lived for the sake of my little girl. Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it enis to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

Swift's Fertilizers Continue to Make Winners

If you used Swift's Fertilizer and obtained the best yield in the state you would, of course, give our fertilizer the credit that was due NOW, if the following year's Champion used Swift's and this performance repeated from year to year, you naturally would begin to think that Swift's Red Steer Brand is a pretty good fertilizer,

Look at the Record and Decide Yourself.

There can be no better proof of the value of a fertilizer than the records made by those who use it. There must be merit in a fer-tilizer that produces the results stated below:

Mr. Will Essig, Tipton, Indiana-131 bushels corn per acre. The largest yield of which there is any record in Indiana. Mr. Essig was recently awarded a gold medal at the Panama Exposition. Used SWIFT'S.

Mr. Norris McHenry, Elizabethtown, Ind .- 112 bushels per acre. Winner of the Indiana 1914 Men's Five Acre Corn Contest. Used SWIFT'S. In 1915 he was induced to use other than Swift's Fertilizer and got no prize.

Mr. F. R. McHenry, Norris' father-used no fertilizer in 1914 and won no prize, but as his son won the State Championship in 1914 with the aid of Swift's Fertilizer, Mr. McHenry used Swift's in 1915, got 87.3 bushels of ripe corn per acre and won the sweepstakes for men in the Bar-

tholomew County Five Acre Corn Contest. The 1st. 2d, 3d and 4th prizes for the highest yields of good quality corn in the 1915 Five Acre Corn Contest for men in Bartholemew County, Indiana, all went to users of Swift's Fertilizer. Also in the Boys' One Acre Corn Contest in the same county, the 1st, 2d,

3d and 4th prizes went to users of Swift's Fertilizer. The Ohio 1914 Champion Corn Grower, Arnett Rose, Alger,

Ohio-153.9 bushels-used SWIFT'S. The Ohio 1915 Champion Corn Grower, Dewey Hames, Arcanum, Ohio-154 bushels-used SWIFT'S

The Indiana 1914 Boy Champion Corn Grower, Roy Friedersdorf, Elizabethtown, Ind .- 128.8 bu. - used SWIFT'S. Gordon Reap, Elizabethtown, Indiana, who was third last year, is County Champion with 105.73 bushels. He also

used SWIFT'S this year. There certainly MUST be something in Swift's Fertilizers' that PRODUCES RESULTS. Swift's blood, bone and tankage fertilizers make prize winners.

If YOU do not use Swift's Fertilizers, you are not sure that you are using the best fertilizer obtainable. You want the bestthen buy SWIFT'S-the Red Steer Brand.

QUALITY COUNTS

more in painting than almost anything else about a building. Cheap paint and cheap labor mean a cracking and a scaling surface in a short time, that costs very much more to repaint than it ought. Cheap painting means inadequate protection against the weather. Can you afford to lessen the life of your building by seeking cheapness as the main thing? When we do the painting we use the best materials; employ competent labor and PAINT TO STAY PAINTED. It costs only a little more; but there's a reason.

The Sun-The Rascal.

(By Hermoine Hughes.)

'Tis quite agreed We need The sun's clear rays To beam around the sky; To comfort us on washing days And make the clothes get dry. By pushing out his light, At early dawn, Just as the stars are gone, He makes the daytime Out of night.

Of such a good and noble sun It's awful to believe. A wicked trick. But he is full of fun And he has one, That surely makes me grieve. He will peek thru the blinds And fade My parlor chair,

Of royal blue, I've moved that chair all 'round the room:

Upholstered in the bright brocade

I've purchased shades of darkest hue,

And yet he wriggles thru The gloom, And fades and fades and fades; Until I'm in despair

About the sun And what he's done To my best parlor chair.

Peace.

(By Mae Gray.)

Lay down your arms, and quit the And flee alone To God's own light

Of peace and solitude. Forget your bloody feud And show a merciful contrition. Lift up your voice, but not with fright,-

Or boastful art; For God is good, with all his might,

FOR CHARITIES CONVENTION

(By United Press.)

Indianapolis, Ind., March 24.-The committee to get 1,000 memberships for the National Conference of Charities and Correction convention here May 10-17, under Miss Edna Henry of Long Hospital, is gradually extending its organization into every county in the state.

"The memberships have begun to come in," said Miss Henry today, "and that is encouraging as it shows we are making progress in the

The Indiana committee has set the mark at 1,000 memberships in order to beat the record of Maryland which entertained the National Conference at Baltimore last year.

The work in Indiana is being promoted by chairman in each county. The number of memberships obtained so far is less than one-sixth of the total to be obtained, according to Miss Henry.

TODAY'S ODDEST STORY.

Boston, March 24 .- Dr. Samuel A. Eliot, member of the Un- * ited States board of Indian * commissioners, declared today * Minnehaha has turned millner, • that the Indian women and girls of the southwestern reservations are rapidly acquiring the art of hatmaking. Also they have turned from the gaudy hues that delightened 4 the heart of the old warrior and now prefer modest shad-• ings. Dr. Eliot is just home • from a trip through the west.
